Eurydice National Unit in Ukraine –  
SSI "Institute of Educational Analytics"

Co-funded by  
the European Union

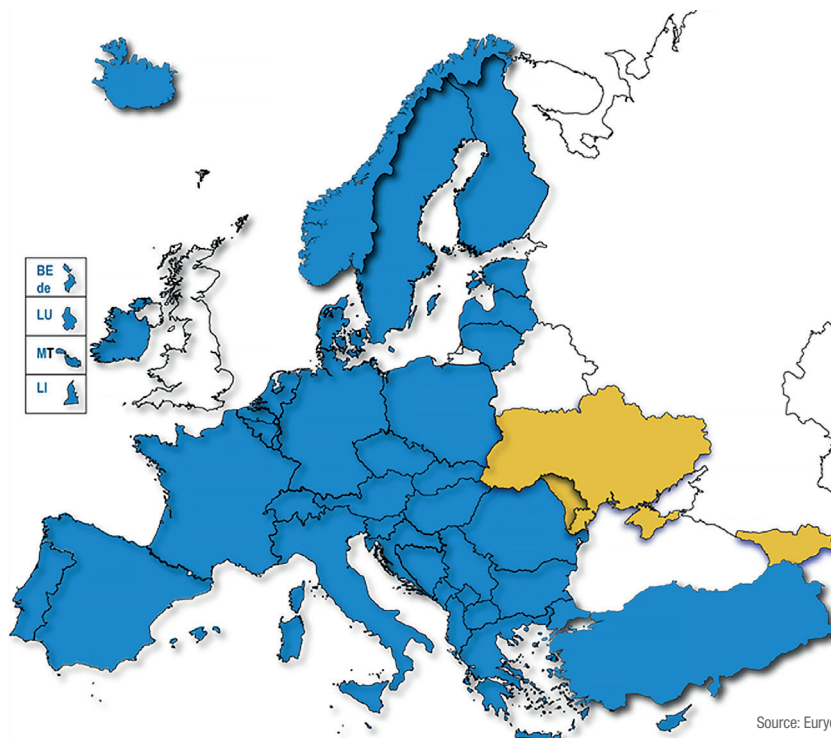

State Scientific Institution  
"INSTITUTE OF EDUCATIONAL  
ANALYTICS" (SSI "IEA")

Державна наукова установа  
«ІНСТИТУТ ОСВІТНЬОЇ  
АНАЛІТИКИ»

The State Scientific Institution "Institute of Educational Analytics" is the leading scientific institution in Ukraine in the development of educational statistics and information analytics. The main goal of the Institute is to create reliable information and analytical support for the Ministry of Education and Science of Ukraine regarding the formation and implementation of state policy in the fields of education and science. The Institute has become an information and analytical back-office of the Ministry of Education and Science of Ukraine, effectively using modern IT tools and Data Science methods. The Institute provides technical administration of national education management information systems, which are constantly scaled up and modernised with new applications.

An important component of the Institute's activities is international cooperation, in particular the implementation of EU projects in the context of harmonising the national education system with the European educational area. In 2023, the Ministry of Education and Science of Ukraine signed an agreement with the European Commission on cooperation in the field of education, which opened up new opportunities for rapprochement with the EU. In 2024, Ukraine officially joined the European educational information network Eurydice.

## EURYDICE NETWORK ЄВРОПЕЙСЬКА ОСВІТНЯ МЕРЕЖА «ЄВРИДІКА»

The SSI "Institute of Educational Analytics" was appointed as the National Unit of Eurydice in Ukraine within the framework of the EU Erasmus+ project "Eurydice Network in Ukraine: Access and Cooperation" (ENUAC). In addition to Ukraine, Moldova and Georgia were also included in the Eurydice Network, bringing the number of National Units to 43 and the number of member countries to 40.

The Eurydice Network is a network that aims to explain how education systems in Europe are organised and operate. The Eurydice website publishes and constantly updates data on national education systems, thematic reports and comparative studies, education statistics, visual materials, etc. The Eurydice platform contains comprehensive and reliable information on education systems in Europe, available for comparison, analysis and development of evidence-based education policy.

National Eurydice Units are responsible for compiling descriptions of their education systems in 14 main sections according to a unified structure.

## **Eurydice materials are aimed at a wide range of users:**

- educational managers who develop and implement educational reforms;
- researchers and analysts in the field of education engaged in comparative research and analysis of educational systems;
- teachers and educators who want to learn about new practices and trends in education;
- students and the general public who are interested in European education systems.

## **The Eurydice website publishes and constantly updates this information:**

News and articles

As part of the project "Eurydice Network in Ukraine: Access and Cooperation (ENUAC)" (Grant No. 101167035), the Institute's team is responsible for filling in the profile of the national education system of Ukraine on the Eurydice Network website, covering sections 1-8 and 14, as well as page 15, from January 2024 to March 2025.

In the long term, access to up-to-date information on the Ukrainian education system will be provided, as well as constant information on EU activities in the field of education.
